Hello Tom,

I'm not sure that a date and time has been finalised. I think its been a bit of a moving target. I will confirm and get back to you shortly.

related to this, I've asked our pr folks that we not invite the media into the fenced-in area. Seems to me they would just get in the way of all the activity, and with the gate/drive being the single access point, we sure don't need them inadvertently blocking the way.

Ron:

I heard a rumor that the "media day" was changed to Monday, the 20<sup>th</sup>, instead of Tuesday, the 21<sup>st</sup>. Can you confirm (or deny) this for me?

Thanks, Tom.

**Subject:** Former Whirlpool Park Site Sampling Schedule

Steve,

As we've previously discussed, here is the final sampling schedule:

May 14: Surveyor to Stake Sample Locations. Bridge inspection.

May 15: Underground Detective to conduct utility survey (adjust sample locations, if needed.)

May 20 to 24: Soil borings, sediment, surface water, filter media and surface soil sampling.

May 28 to 31: Monitoring Well installation/development. IA#3 test trenches tentatively scheduled for May 29 to 30.

June 3 to 7: Groundwater purging/sampling and VAP yield testing. Off-site borings.

June 10 to 12: Topographic survey and IDW sampling, if needed.

Please let me know of any questions. Thank you,

Ron
